

OUR PENS ARE DAGGERS

in the hearts of **KUFFAR**

From the time of the creation of Adam (PBUH), Satan had waged war against the sovereignty of Allah almighty. And he swore in the court of Allah almighty that he would surely lead this caliph of the earth astray, from all aspects until the Day of Resurrection, and he would force them to do various forms of Shirk in the Oneness of Allah almighty. On the other hand, Allah almighty also rejected it with the pride that those who will be my sincere servants will not be influenced by you. This war of Tawhid and Shirk (monotheism and polytheism) has been going on since the beginning, hence, only two armies exist on the face of the earth, one is the army of the Most Gracious, and the other is the army of Satan. So those who believe become the soldiers of Allah, and those who worship the devil and their desires, become the soldiers of Satan. Allah says: **Those who believe fight in the cause of Allah, and those who disbelieve fight in the cause of Taghut. So, fight against the allies of Satan. Indeed, the plot of Satan has ever been weak. (A-Nisa: 76)**

And then Allah praises the believer by saying: **“The believers are those who believe in Allah and His Messenger, then do not doubt, and fight in the cause of Allah with their wealth and their lives. These are the truthful ones. (Al-Hujrat: 15)**

This war of faith and disbelief has always been fought in the military and ideological grounds, rather it would be more accurate to say that the ideological war is the foundation/root of the military war. Kuffar has always emphasized more on ideological attacks against Islam, and for this, it has spread its weapons all over the world, even children have fallen prey to its disasters. Even when the media did not exist, these agents of Satan used to spread false ideas against the truth with their own tongues and lured Muslims into their trap by indulging them in lust, worldly greed and sometimes pull them to their side by threats. But when the truth pursued these ideas and beheaded the false with its pen, these infidels and their apostate disciples came into the ground and presumed that they would break the morale of the believers with their modern weapons and large armies. But this command of Allah Almighty: **“O you who believe! If you support Allah, He will also support you and plant firmly your feet. (Muhammad: 7).**

Not only gave strength to the believers in every age but also plant their feet firm against these powers in such a way that even after their best efforts, they could never completely suppress the voice of truth. The disbelievers think that by killing the believers, imprisoning them, they can destroy the religion of truth, but

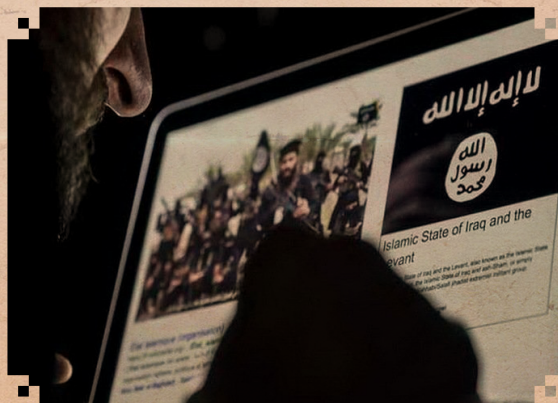

they are unable to understand that this war is neither of power, nor of the piece of land, nor of wealth, rather this is the war of an ideology, which does not end with the loss of lives, but for one soul Allah almighty lights up hundreds of lamps to help His religion. The Prophet (PBUH) said: **"Jihad will last until the Day of Resurrection."** This statement of the Holy Prophet (PBUH) is a testimony to the fact that there will never be a time in the world when the guardians of truth will not heat up the ideological and military battlegrounds. In every age, and every era, they will continue to fight with every modern technology with the strength of faith, until the light of Allah Almighty is completed, and the whole religion belongs to Allah! Allah almighty said, **they want to extinguish the light of Allah with their mouths, but Allah will perfect His light, although the disbelievers dislike it. (Al-Saff: 8)**

In this age of social media, this ideological war is gaining more and more importance, because for decades, the agenda of the infidels is to immerse the Muslim mind in negligence and luxuries to make them realize that the religion of humanity is more important than faith, in which everyone has the right to freedom of opinion and expression; every human being is free and independent in his religion. Even every false and polytheistic religion in the world has the same rights as Islam. The infidels were well aware that when the minds of the youth will be diverted from the reality of Islam, their keenness for military war would automatically die out. In order to achieve this, they used the media, the evil scholars were bought by the lure of the world, and then through them they promoted modern Islam on the media. The concepts of the beautiful life of the world and the preaching of modern Islam by the evil scholars had a great impact on the minds of the people. But the Kuffar did not stop there, but they shadow every house and child through this social media. They popularized pornography and nudity by different applications, websites and chatting platforms, from which adult to child forgot the purpose of their life and got lost in it. But this ploy of the infidels backfired on them, when the Muwahidin started the invasion using their own weapons. Through this social media, not only did they start awakening the Muslims but they also started inviting the infidels to the path of truth. While the infidels used to cover up the news of oppression, abuse and murder of the Muslims, these media warriors would expose the nefarious tricks of

the infidels. And therefore, the voices and calls, to stand up for the defense of Islam and oppressed Muslims began to reach door to door, thus uniting the hearts of the Muwahidin for the sake of their religion and Ummah, through the same social media. Verily, Allah says: **"And the disbelievers planned, but Allah also planned. And Allah is the best of planners"**.

Although the Kuffar repeatedly declare in their media that we have eliminated Mujahideen and Muwahidin, and they no longer have any influence, but on the other hand they get caught by their own words when they themselves admit that they Failed to stop the Muwahidin in the field of media. The more the infidels tried to hinder the truth, the more the media war would intensify, until the leaders of the kuffar's media would be ashamed in front of their people that they could not stop the fearless Muwahidin from spreading the truth despite of their modern technology. Dr. Jean-Marc Rickli, in his article **"World War Stories and the Role of Social Media"** writes:

"Social media has become an amplifier of ideas, a creator of meaning and a generator of conflicts as well. Social media is the current vector of choice."

Admitting that **"IS is the first organization that has used social media as a force multiplier,"** he openly admits his helplessness and writes: **"Both Twitter and Facebook have demonstrated the power of their platform through manipulating their user's emotions by changing their news feed to proving the im-**

portance of its platform in countering violent extremism when deciding to audit and close down accounts tied to IS last year. However, as soon as one account is closed down, more appear."

In this long article, he describes his own failures and inadequacies: Google's director of policy strategy, to "combat IS' deft command of social media" Google is now actively urging all users of its platforms to use their skills to tell a different story to counter the narratives being spread by IS.

It is the confession of the Kuffar's research institutes that they fight this media war with the Khilafah only by spreading lies and accusations. The real purpose of a global company like Google is to turn consumers away from the truth and the righteousness, through lies and propaganda, but they are falling head over heels in this conspiracy and even their supporters scream that our claims are being shattered and the voice of truth is growing instead of being silenced:

“The US Cyber Command launched a series of attacks last month on IS – but only to find themselves criticized for doing too little too late and risking to rupture years of intelligence work to follow the cyber-trail of IS.”

According to Bruce Hoffman, a counterterrorism expert, he said in his book that **“terrorism and the media are bound together in an inherently symbiotic relationship, each feeding off and exploiting the other for its own purposes.”**

Oludare Ogunlana writes in his article: **“Unfortunately, The Internet has expanded the terrorists’ theater of operation, allowing them to bypass the traditional media gatekeepers through the use of the cyberspace infrastructure. There is no doubt, the next war will be on the cyberspace.”**

He further added, **“Restricting the freedom of the press will be of no meaning in the present media age where the terrorist has discovered media as additional and important weapons in the sustenance of their struggle.”**

And all praise and thank is to Allah. Today, the Kuffar themselves admit that while media is their main weapon, it has reversed their own conspiracies. Praise be to Allah. The Khilafah understands the importance of Media, as well as Military in this war of truth and falsehood, and it is well aware that wars are fought with the ideology rather than weapons, so this is why the **Diwan-ul-Jund** i.e., Department of the military exists, along with it, there is a great and permanent department of Media, which is called **Diwan-ul-Ilam Al-Markazi**. Which is the vanguard of truth and righteousness on all the fronts of every field of media and it is fighting against the media forces of infidels and tyrants. Praise be to Allah. Today, every other person is compelled to appreciate its deeds and actions. And even the enemies of Allah, take bitter sips day and night, while acknowledging its media power. By the grace of Allah, this Diwan-ul-Ilam has forbidden the sleep of Kuffar and apostates. And they have spent billions of dollars to counter it, and they want to extinguish this light of Allah with their blows, but woe to the disbelievers, Allah wants to perfect His light, no matter how much the disbelievers dislike it. Indeed, the Khilafah’s media call has reached every Muslim, young or old, and every special and common man, that the Islamic State denies all idols and calls upon oneness of Allah. The only areas on earth where the law of Allah prevails with all its might and glory are the lands of Khilafah. That is why, Praise Be to Allah, Muslims from all around the world, migrated to the lands of Khilafah because of its media’s call of truth, and lived under the shadow of the Shari’ah. And how many disbelievers

have read the greatness of Islam and followed the path of jihad and fighting. And it became a tool of awareness and consciousness for the people who were in a state of negligence.

Due to the special military tensions and sensitivity in the Pak-India region, there is a strong hatred against Islam and the people of Islam between the Pakistani apostates and Indian polytheists, who drink cow’s urine. This is why, the slightest wave of awakening becomes a source of anxiety for these infidels and apostates. Thus, after the two years of proclamation of the Khilafah, in 1437 AH, the video **“HIND: Between Pain and Hope”** aired by the Wilayah of Homs, shook the tyrants of India. And in this magnificent video, where the sons of the Khilafah rebuked the Tawaghit of Hind, they also invited the sleeping Muslim Ummah to action and showed them the way. So, the entire Indian infidel media became confused, as it could not tolerate the honor and dignity of the people of Islam and their call, and started barking like a mad dog, to prevent this call from reaching the Muslims. But how can the devils and their demons stop the light of Allah from spreading? So, as much as the Hindu polytheists tried to stop this call of truth, it spread so much, by the grace of Allah, that we saw with our own eyes in the passing days that the message of that video reached the ears of every monotheist in India. And due to this, a flood of hope and enthusiasm began to re-emerge among the oppressed Muslims and slowly a stream of light began to flow. Praise be to Allah.

Then, with the extension of the Khilafah, as the light of Allah spread on the planet, so did its media expand. Until, by the permission of Allah, its provinces were established in the east and west of the earth, and then the day came when **Wilayat-ul-Hind** was announced in Ramadan of 1440. AH.

At that time, the joy of the Muwahidin was to be seen, and on that day, the hearts of the believers were full of joy. Only then, with the help and support of Allah, the media of **Wilayat-ul-Hind** gradually became active with its own means and resources. As a result, many Media Foundations from mainland India began to emerge. Among them are **Al-Qarar, Al-Isaba, Al-Burhan, Al-Tazkira** and many others. Praise be to Allah! And then gradually their field of Dawah grew until they became a thorn in the sight of the Kuffar. And every word that was broadcast from these Medias became a nightmare for the infidels.

And then Allah blessed His Muwahid servants with more success and then the monthly magazine **Sawt-al-Hind** was issued. Then with more success a permanent platform for Hindi news i.e., **Al-Qitaal Media** was launched. Which translates the official news of the Kh-

ilafah into Hindi on a daily basis, praise be to Allah, and at this time, **Sawt-al-Hind** is about to complete two years of its continuous publication, and **Al-Qitaal Media** has been striving continuously for almost a year to perform media services and is working hard.

So, as much as the disbelievers were disgusted with this spreading light, Allah Almighty spread it more, and it gained popularity day by day. And by the command of the Almighty, it is having a profound effect on the Indian subcontinent. Praise be to Allah. The **Sawt-al-Hind** has comprehensively covered in its articles, the Dawah of Ibrahim (PBUH). In which the Muwahidin from inside and outside India took part universal, and described Kufr bit Taghut manifestly. And now its circle of readers encompasses thousands of people from all walks of life. Praise be to Allah. So, thanks to all this, the **Sawt-al-Hind** magazine has become a thorn in the sight of the infidels of India and is the focus of the attention of the Kufri media.

So, the infidels comment on its each and every article, speculate on the situations and try to makes guesses in the dark. These disbelievers were trying to prevent the voice of truth from reaching the people, so beside those who already read it, Allah has compelled others to read every word that we have written, All Praise Is to Allah!

And the Kuffar filled the websites with various articles and comments to obviate the call of **Sawt-al-Hind**, and made many videos on it, even they copied **Sawt-al-Hind** and created fake issues so that they could distort its form and block its Dawah. But these infidels were plotting against us and making their own move

but Allah had His own plans. Thanks to their floppy tactics, the circle of the **Sawt-al-hind** became even wider. And the enemies of truth trembled in their anger. And then finally the infidels and apostates started attacking the common Muslims to stop this magazine where they oppressively arrested them, and now started accusing them of being responsible for the magazine and started torturing the naive Muslims to pacify their bestiality. The facts are that, since the first issue of **Sawt-al-Hind**, the Kuffar have repeatedly claimed that they have arrested the people of magazine, but thanks to Allah, they lick their own vomit every time and then angrily bite

their fingers. ... die in your rage!

It is only by the grace of Allah, that He protects and helps His servants at all times, and bestows upon them His success. So, we warn all the disbelievers and apostates: O Hindus who drink cow's urine and apostates who become their companions! Of course, you have tried all your tricks, tactics and diversions to stop the call of truth. Indeed, Allah has disgraced you and exposed the falsehood of your claims. Know! That Allah has humiliated you every time and exposed your lies to the people every time and you cannot harm Allah almighty at all. Likewise, we promise you that the incoming days, insha'Allah, will be very bitter for you. And the attacks and assaults of the Muwahidin in the military and media grounds will corrupt and blow your minds. And this magazine, **Sawt-al-Hind** and other Munasir Medias will continue to strive for the promotion of the word of Allah more than before.

By His will, and **Allah is predominant over his affair, but more people do not know.**
